Dear Professor Lederberg:

I refer to the discussion with you regarding the possibility of a grant to write two book manuscripts as a follow up for my two books on knowledge systems (Aborted Discovery: Science and Culture in the Third World and Evolution of Information: Lineages in Gene Culture and Artefact).

As you suggested I am sending herewith a narrative of the proposed research and writing project as well as a CV. I am also enclosing 3 reviews of my book as well as some copies of the citation index relating to me.

My referees are the following:

I hope that the information I have given and its presentation are adequate. If you suggest any changes -specially to make the research/grant proposal more appealing to an American point of view-, kindly let me know.

Thank you.

Sincerely,
